

Master in Management Program*

International Business and Corporate Development

Build an international expertise:

CEOs and top management teams of corporations/organizations acknowledge that globalization is the most critical challenge they face today. With every industry and product becoming more global, being able to understand and manage internationalization is a crucial determinant for success in the job market.

This Master is the right choice if you want to:

- Work in an international and entrepreneurial context and become an international **(business or corporate) developer**;
- Develop a **strategic and international mindset**;
- Be thoroughly prepared for a more **digital and global job market**;
- Engage in **sustainability management**;
- Meet inspiring teachers, company representatives and **international peers** who share your passion;
- Learn from international managers and professors through a **practical approach based on real-life experience**;
- Stronger your language skills and business relationships thanks to a **program taught in English with additional French language classes** (different levels);
- Study in **downtown Paris**, close to main European businesses and headquarters of multinational firms.

The Master is open to all students with a Bachelor degree, regardless of their previous fields of study, creating a rich environment of cultural diversity and a great opportunity to share knowledge. During the course: engineers, scientists, linguists and management students get together to share their experiences and form their multibackground and multicultural context for the cohort.

Whatever your initial background is (degree and professional experience), we truly believe in candidates' potential and make it our mission to support and guide you to achieve your master's degree and professional aspirations.

«Cnam is a great university, not only the location in Paris downtown, such a beautiful and historic campus, but provides an international learning environment and experiential courses as well. Lots of interesting topics, case studies, group works, which makes classes more joyful and easier to understand. Finally, I appreciate that I had an opportunity to studying at Cnam, and a big thanks to the professors. Your effort makes me different.»

Become an international (business or corporate) developer

This Master is designed for future global managers who intend to participate in the renewal of international managerial practices, notably by integrating sustainable and digital development, putting globalization in perspective and anticipating the evolution of international companies (geopolitical drivers, new global players, new business models, new missions, etc.).

This Master aims at:

- Develop your critical thinking as well as practical knowledge through real case studies, feedback from very experienced professionals and a 3 month professional experience;
- Provide you the skills required to manage firms in a challenging globalized, sustainable and digitalized world. Thanks to small dynamic and multicultural classes and courses designed to develop an analytical mindset, a creative and smart problem-solving approach and intercultural-based understanding of management, you will acquire an international expertise and become the ideal candidate for any professional position that involves contributing to corporate (or business unit or project) international development.

Core skills:

- Ability to operate and negotiate in a multicultural and changing environment. You will develop interpersonal skills that make it possible to work with different audiences, countries or cultures and to lead international teams;
- Ability to conduct competitive intelligence by watching and searching for quantitative and qualitative information about the international environment and your professional sector in order to anticipate changes (identifying key players, new consumer needs, new markets, etc.);
- Ability to design an International Development Strategy integrating new capabilities to acquire as part of the international development of your company;
- Ability to implement International Development Strategy (customs, commodity trading, financing, legal issues and risks coverage);
- Ability to conduct sustainable and digital development.

«The Master experience was thoroughly different from all the experiences I had before joining the program. The Master program urges you to surpass yourself, directly from the beginning of the year, with the business simulation course. This course allowed me to have a preview of what came forward through the year. Participating, pragmatic, near to the reality of the world business; all kind of aspects of the Master courses. Surely, this program has an impact on my personal life. I did struggle a little bit to find the right job in Paris, but today I'm on my new own activity, and the all I learned with Master program is very useful for the development of my business.»
